

Student Visa Statement of Purpose

FirstName Surname

University of XXXXX

Today's society is becoming more pluralistic as individuals diversify, and employees become more complex. I believe that for the organization to remain successful during these changing times, it is essential for them to have a reliable team of trained professionals who will continue to strengthen innovation. Having done rigorous groundwork through my professional and academic experiences in IT, I believe that it is time to advance my managerial skill and to enhance my leadership skills in IT. Additionally, my extensive work experience demands higher education to attain a more senior leadership role. Therefore, at this level, a Master's degree will be essential for me to achieve key administrative profiles and attractive pay packages. For these reasons, I want to pursue an MBA from the University of ~~XXXXXXXXXX~~.

As I considered my alternatives for post-graduate studies, the Master's in Business Administration at the University of ~~XXXXXXXXXX~~ stood out for various reasons. The comprehensive curriculum and interdisciplinary nature of the program appealed to me. Also, the University of ~~XXXXXXXXXX~~ is known to have a distinguished faculty, and I would be privileged to work under their supervision. I believe they will bring their academic professions and industrial experience through instruction, which is precisely what I desire. I believe that this is the most appropriate and convenient time to expand my academic horizon and to gain new experiences and knowledge in business management.

I have been working in the United States for the last six years under a working Visa. I have worked as a Systems Analyst at ~~XXXXXXXXXX~~ for the last six years, and I was transferred to the US branch from India in 2014. I was part of the team that provided support for ~~XXXXXXXXXX~~ Network Provisioning Application. I have also worked on various technologies, including SQL, JCL, and COBOL, among others. Moreover, I was also actively involved in training new team members while at the same time maintaining a cordial relationship among teams. I have been a productive member of the company for a total of twelve years and seven months during my long study break.

I resigned from the ~~XXXXXXXXXX~~ Company on 14<sup>th</sup> February 2020 after receiving an acceptance letter to the University of ~~XXXXXXXXXX~~, to pursue a Master's program in Science and Business. Classes at the Institution began on 16th March 2020. However, my first choice has always been to study at the University of ~~XXXXXXXXXX~~ in Canada.

I have always desired to study in Canada for various reasons. The Canadian education system is ranked best in the world. Moreover, Canadian institutions offer an innovative, dynamic, and challenging environment that will enable me to nurture my true potential. Furthermore, Canada is safe, secure, and peaceful. This will create proper learning conditions that will help me excel in all my studies. After completion of the MBA program, I intend to return to India, where my parents and extended family reside. Moreover, with the MBA qualification from a recognized Canadian institution, it will be easier for me to secure a Managerial Position in an IT firm in India.

For years I have worked hard to build a decent life in India for my family and I, and after completing my studies, I intend to return home, carry on with my life and put the acquired knowledge into good use. I also hope to secure a lucrative managerial position in an IT firm upon my return to India. I have deep roots in India, not only from my family side but also in my financial life, and I do not plan on relocating to any other country. My mother, father and mother in law are the growing old, and it is my responsibility to care of them once I return from my

studies in Canada. I also have an established home in India under my husband's name, and I would attach the deed and a house possession agreement for verification if requested.

Moreover, I took up a life insurance policy in India that I have been paying for a premium of INR 2000 ever since 2009. I will also attach a proof of the premium payment for the last one year. I also have a provident fund pension scheme that is managed by the Ministry of Labour and Employment. Therefore I am obliged to return to India after my studies to continue contributing to the scheme. I will also attach proof of the pension scheme for verification. I have maintained a bank account with ~~xxxxxxxxxx~~ bank in India since July 2007. With the plans to return to India, my husband and I have transferred most of our savings income from the United States to the Indian bank. I have also attached proof of the transfer along with the other documents.

In 2016, my ~~xxxxxxxxxx~~ applied for a Student Visa in Canada twice, on June and September, as he had received an acceptance letter to attend the University of ~~xxxxxxxxxx~~. However, he was unable to present all the documents required to convince the officer in charge of issuing the Visa. Therefore, his application was declined. The reference numbers for the application are UCI ~~xxxxxxxxxx~~, application number ~~xxxxxxxxxx~~ for the first application while the second application was ~~xxxxxxxxxx~~. During our stay in Canada, I have been responsible for taking care of my family's financial expenses, among other needs. I have a ~~xxxxxxxxxx~~ who is two years and ten months old, who is also a citizen of the United States.

I believe that both my academic and professional background will significantly contribute towards my success in the Master's program. Acquiring the Master's degree will equip me with the necessary skills and concepts needed in business management at my place of work. Furthermore, the program will enable me to further advance my studies by pursuing a Ph.D.; my long term goal is to complete the MBA program. This will secure me a managerial position in an IT firm. I believe that my diligence, professional, and technical experience will enable me to excel in the MBA program. Thank you for considering my application.

I look forward to studying in Canada so that I can pursue the best education that will help me achieve my goals.
